We are designing the future of 35th Street, and we need your help!

What we are doing:

- We are holding 4 community meetings for residents of McKinley Park to tell us what improvements they would like to see on 35th St. and the area around the 35th/Archer Orange Line.
- Each event is different - join us for one or all!
- We want everyone to be heard! Interpretation available in English, Spanish, Mandarin, and Cantonese.
- Activities for children will be available.

Who we are:

- The McKinley Park Development Council (MPDC), UIC College of Urban Planning and Policy (CUPPA), Institute for Policy and Civic Engagement (IPCE), and Design Workshop are working together to bring you this community-led urban design process.
